Speech Therapist For County

Miss Chris Acree, of Greensboro, (left) will be the speech therapist for Appomattox County public schools, replacing Miss Lucia Weatherford (right) who will be married next month. A graduate of East Carolina University, Greenville, N. C., Miss Acree has been serving as speech therapist for Hertford county, N. C. Hearing Tuesday On By-Pass

The second public hearing on a location of the arterial US 460 By-pass for Appomattox will be held at 7:30 p.m. Tuesday at the Appomattox County Court House.

Maps and other pertinent information are available for public inspections and copying in the Appomattox Residency office of the Va. Dept. of Highways.

Written statement and other exhibits relative to the proposed project may be presented in place of, or in addition to, oral statements at the hearing.

Such written statement and exhibits also may be submitted to the Highway Dept. up to 10 days after the public hearing.

Relocation assistance programs will be discussed at the location hearing.

The first hearing on the proposed by-pass was held in July 1966. Since then higher standards for the state's arterial networks of arterial highways have led to revisions.

The current proposals for the by-pass call for limited access and no at-grade intersections.

The by-pass would run from 0.72 of a mile west of the west corporate limits of Appomattox to the same distance east of the east corporate limits. Two lines will be considered, one of 3.3 miles in length and the other of 3.2 miles in length. They are the same from Va. 631 to the east end of the project.

The by-pass will connect with completed arterial sections on each side to provide multi-lane divided highway on US 460 from Prince Edward county to the Lynchburg area. Other construction to upgrade the route presently is underway.

County Budget Is $1,941,889

No one appeared in opposition to the proposed county budget of $1,941,889 for the fiscal year commencing July 1, 1970, at the regular meeting of Appomattox County supervisors Friday.

School budget for the county's public schools accounts for $1,295,899 of the amount. The board prepares a budget for informative purposes only. An anticipated surplus of $270,000 is being set aside, the board says, for the proposed new county high school.

In other action Friday the board voted to contribute at least $700 to American Legion Post 104 for the construction of a monument on the Court House grounds to county war dead from all wars.

Mark Weatherly, chairman for the project, told the board that tentative plans call for a stone shaft, possibly with a bench on each side, the entire monument and mounting to be surrounded on three sides by a separating wall.

The board voted unanimously to reappoint Dr. John A. Mathews to a second four-year term as member of the Board of Advisors, Central Va. Community College.

Commonwealth's Attorney Harry B. Lawson and Sheriff L. L. Stanley appeared before the board to ask for a higher salary raise for the sheriff and his deputies than State Compensation Board had allowed.

Lawson said that some neighboring counties had been granted a 10% increase for the sheriff's department — Appomattox only 6% in light of a letter so recommending this by the board of supervisors have.

The board declined to change their recommendation.

Two representatives from the Gladstone Rescue Squad, R. H. McFadden and Mrs Elizabeth Banton, appeared to request a contribution.

C. M. Clarke, resident engineer, Dept. of Highways, gave a report from road viewers on requests for rural additions to the secondary system in Appomattox. Four additions were approved for a total of $10,500, the county's allotment (2% of the budget) for rural additions.

Pamplin Ruritans Present Gift

Doug expressed thanks on behalf of all the Squad. Plans are underway to purchase an ambulance, and each check is quite welcome, he said. Young ball players of Pamplin and the Pamplin Fire Department also benefited from the Pamplin talent show.

Vepco Will Prepare Economic Study

The Virginia Electric and Power Company announced plans to prepare an economic study of Appomattox County.

The purpose of the study, according to Vepco Community Development Manager Kenneth W. Lane, is to provide a reference of current economic information on the county.

The study will encompass the entire county area and will include up-to-date economic data on all phases of the county's economy as well as a number of representative industrial sites. Lane said the study will be used as a tool to assist in the economic and industrial development of the area.

"In this highly competitive field of industrial development, it is essential that current economic data on a community be available and in presentable form in order to work effectively with industrial prospects," Lane said. "This study will be prepared at no cost to the county, and Vepco welcomes this opportunity to work with the people of Appomattox County on this community project."

Lane said the study has been requested by the County Board of Supervisors whose members have expressed their support and endorsement of the project.

An Economic Study Committee has been formed to aid VEPCO in the compiling of current information to be included in the study. This committee is headed by James A. Smith, county agricultural extension agent. Also serving on the committee are C. S. Booth, William Dudley, Carter Martin and Otho W. Martin, Jr.

Presentation of the study of VEPCO is tentatively planned for August.
